Welcome to the home of the NSA Playset.

In the coming months and beyond, we will release a series of dead simple, easy to use tools to enable the next generation of security researchers. We, the security community have learned a lot in the past couple decades, yet the general public is still ill equipped to deal with real threats that face them every day, and ill informed as to what is possible.

Inspired by the NSA ANT catalog, we hope the NSA Playset will make cutting edge security tools more accessible, easier to understand, and harder to forget. Now you can play along with the NSA!
